

Patent Pending Bulli-Hinge 781% Stronger

You can offer specialty patent pending garage door hardware to upgrade your own specialty door. Offer your clients improved security on a luxury carriage door or heavy duty commercial door.

Ultra strength top and bottom brackets

Our hardware was specifically developed to provide elite protection against multiple threats.

- Roller stems are rated to 781% stronger than the industry standard
- Hole pattern to coincide with industry standard on hinges
- Top brackets specially designed to provide strength and ease of installation
- Bottom brackets built to provide better impenetrability

100,000 Cycles Tested
